NATURALLY PRODUCED
MAKHANAS

THE SUPER FOOD

CRINITFRESH****

A close-up photograph of a green bowl filled with white, textured makhana (fox nuts). The makhana have a distinctively lobed, seed-like appearance and are scattered with small, reddish-brown pieces, likely dried rose petals or saffron. The bowl is set against a dark, solid background.

CRINIT-FRESH

A photograph of a man in a grey t-shirt working in a field of lotus plants. He is bending over, reaching towards the ground between the plants. The field is filled with green lotus leaves and purple lotus flowers. The background shows more of the same agricultural landscape.
